## Personal Statement

---

As I venture through an expanding digital age of growing technological advancements, I aim to seek more knowledge and understanding of the future ahead through Creative Design and Web Development so that I can become an expert in the work I have a passion for.

## Skills and Competencies

---

### Web Skills

- 10 years experience with Frontend technologies
- Advanced knowledge in HTML5 and CSS3 coding standards
- Extensive experience in the use of preprocessing languages such as LESS & SASS/SCSS
- Expert in responsive design, mobile optimisation and cross-browser compatibility standards
- Expert knowledge in the Bootstrap (4) CSS framework
- Advanced knowledge in version control systems such as GIT
- Sufficient experience in using Javascript libraries such as jQuery
- Progressive knowledge in PHP development in object-oriented platforms
- Wireframing, prototyping and creation of mockups/concepts
- Experience in issue tracking applications such as JIRA
- Progressing knowledge in NodeJS
- Firm knowledge of the best practices in Web Accessibility and User Experience
- Advanced knowledge in the use of LMS's such as Moodle, Totara & Mahara
- Excellent knowledge of the WordPress CMS

### Design/Print Skills

- 10 Years solid experience using Adobe Creative Suite. Specifically Photoshop, Illustrator and InDesign
- Knowledge of the fundamentals of Design, Typography and Color theory
- Extensive knowledge & experience in designing artwork ready for print

# Experience

---

## UX Developer

Synergy Learning (May 2016 - Present)

- Core member of the UX team in building & maintaining plugins & themes for a large number of global web-based learning management systems & content authoring tools
- Work closely with the Operations team to deliver projects that are visually/functionally of the highest quality
- Delivered onsite Discovery/UX workshops for clients
- Mentoring of colleagues on best practices and providing user focused solutions
- Creation & maintenance of product/project level specifications and documentation
- Evaluated and tested UX focused tools to integrate into current systems
- Contributed to building product level roadmaps and strategies
- Core contributor in providing accurate project estimations for the UX team

## Graphic Designer / Web Developer

XINKED Print & Design (October 2012 - April 2016)

Worked in partnership with XINKED as the leading Graphic Designer and Web Developer for all clients associated with the company. Also excelled in a key sales and marketing role that helped expand the recognition of the company and develop solid connections with well known companies from around the UK.

## Graphic Designer

BangBang Print (August 2011 - October 2012)

Contracted with BangBang PR & Print to take a key role in producing many brand identities, designing print material, sales & marketing for start-up businesses across the UK & Ireland.

## Freelance

September 2008 - Present

Undertaking small projects outside of commercial & contracted work helps me to develop new creative solutions and enhance my ability to provide a better end product for my clients. I currently provide freelance work for Graphic Design, Web Development, IT, Videography, Photography & Print
